

In response to the proposed expansion of LPFM broadcast service, which I understand may displace translator service to existing radio stations such as K-Love (89.5 FM in Great Falls, MT):

I would like to present the following as reasons NOT to proceed with this proposal:

- 1) K-Love provides me with a pleasant alternative to typical commercial radio. I do not enjoy listening to other types of music, and I do not enjoy listening to the advertisements on other stations (K-Love is listener supported - no commercials).
- 2) I would estimate that several thousand individuals in this community would lose their primary radio station if K-Love were displaced by an LPFM signal.
- 3) K-Love's programming promotes good emotional and spiritual health by offering music and DJ comments that are Biblically oriented. The program content is safe for all family members. They also offer programs such as on-staff pastoral counseling for those with special emotional needs. The station and its employees are interested in the well being of the entire nation. The message of the station could be described as the embodiment of God's love for all people. Our community and our nation can only stand to benefit from this station. To lose it would be tragic.
